During the tenth century England began to emerge as a distinct country with an identity that was both part of yet also separate from other great powers of Europe. The Normans, who invaded England in 1066, brought with them a new culture and governance that transformed England into a centralized state.

The Making of England: A New History of the Anglo-Saxon World

The Making of England is a comprehensive history of the Anglo-Saxon period, covering the years from the beginning of the Anglian kingdom to the Norman Conquest. The book is written by Mark Atherton, a historian at the University of Exeter. It explores the political, social, and cultural developments of the period, and how they shaped the future of England.

A New History of England

A New History of England is a detailed account of the history of England from the Middle Ages to the present day. The book is written by Jeremy Black, a historian at the University of Exeter. It provides a comprehensive overview of English history, including key events, political developments, and cultural changes.
